

Case study: Cube Accounting

10/10
ease of use

10/10
improved data
security

50%
time saved on
HR admin

The challenge

- **Disorganised HR:** Manual systems (spreadsheets and paperwork) led to inefficiency and poor data tracking.
- **Compliance & security risks:** Lack of secure data and unclear compliance put the business at potential legal risk.
- **Scalability blocked:** Inefficient HR processes hindered the business's ability to grow.

The solution

- **Centralised & simplified HR:** Breathe consolidates all HR information into one easy-to-use platform.
- **Time & cost savings:** The system significantly reduces admin time at an affordable monthly cost.
- **Accessible, accurate, & compliant:** Breathe's simple design makes HR tasks easy, secure and compliant.

I absolutely love Breathe. If I had to narrow it down, the time savings and having everything in one place would be my top two benefits. **For a small business owner like me, it's the perfect solution.**

Anne Wordsworth,
Owner & Managing Director,
Cube Accounting

The results

- ✓ **Time efficiency increase:** Achieved a 50% reduction in HR admin time, freeing up valuable resources.
- ✓ **Effortless HR management:** Ease of use 10/10, making HR tasks simple and accessible for all.
- ✓ **Enhanced data integrity:** 10/10 improved data accuracy, ensuring reliable and compliant HR records.
- ✓ **Exceptional value for money:** Rated Breathe a perfect 10/10 for value, delivering a return on investment.
