

People Powered HR

3x-5x faster onboarding

Switching to Breathe saved hours and even days on data imports

100% tailored for SMEs

Simple HR software built exclusively for small organisations

5x faster, human support

Get expert help, exactly when it matters most

The challenge

Too complex for SMEs: Personio became heavy with enterprise features that didn't suit People Powered HR's smaller clients.

3x the admin: Each client required separate portals and logins, wasting time and creating friction.

Automated responses: Made it hard for busy consultants to get the right support.

Overpaying: Even if client numbers dropped, Personio didn't automatically adjust costs.

Manual overload: Regular import issues left teams typing it all in manually.

The solution

100% SME ready: Breathe's Partner Hub gives consultants one secure view of all clients - no more juggling logins.

3x-5x faster onboarding: Bulk imports speed up the process, saving valuable time.

Cost-effective and transparent: SME-friendly pricing scales with clients. No overcharges, no surprises.

Fast, human support: UK-based support from real people who understand HR consultants' needs.

Built to scale: People Powered HR uses Breathe to manage 10-80+ employees, and adapts to each stage of growth.

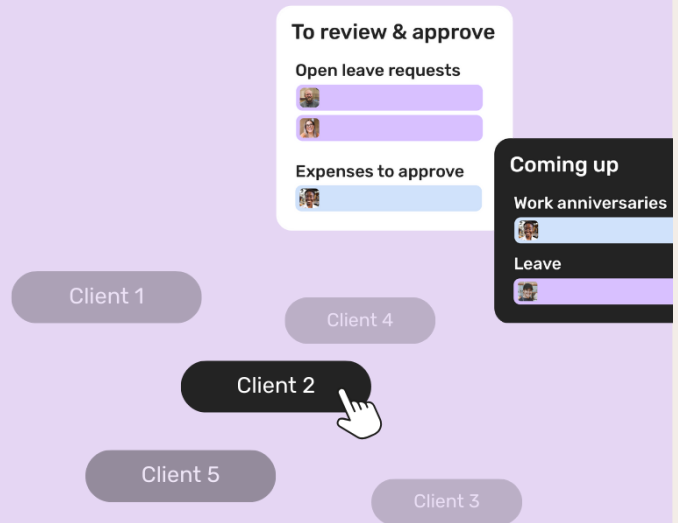

The results

5+ hours saved weekly: Admin time dramatically reduced across HR tasks.

Onboarding 3x faster: Bulk tools and templates mean faster setup for every new client.

100% tailored to SMEs: Designed for HR consultants managing UK-based SME clients.

Stronger client relationships: Spend less time on tech troubles, and more on supporting clients.

“Breathe’s made my job a lot quicker... **I’m not stuck on system admin tasks** like I was with Personio.”

Ethan Fowler,
HR Assistant, People Powered HR
